

## Learn About Zerust®

**No gimmicks or gadgets...  
Zerust corrosion inhibitor is built in.**

*Corrosion is a silent and often unseen enemy, rendering tools and parts unsuitable for use. Zerust® material emits a harmless, odorless vapor that fills the inside of our Zerust tool storage line and forms a protective layer around metal objects during storage. Look for the Zerust symbol next to those products that feature this revolutionary technology.*

- Completely hassle-free and does not require maintenance.
- Inhibits rust and corrosion for up to 5 years in the liner and 1 year for the capsule

### The 24 Hour Test

#### Without Zerust® Protection

Few things are as pervasive as corrosion. Corrosion attacks metal products during manufacturing, shipment, storage and even while in use.

#### With Zerust® Protection

Zerust® provides a solution to the corrosion problem. It helps to increase efficiency, saves money and most importantly protects tools and hardware keeping them operational.

*Test performed with distilled water & Zerust® Capsule™ submerged 48 hours prior to adding metal.*
